

# Weszty Golf - Knock Down That Pin!™

## CGS Irons

The **CGS** uses a 20 gram tungsten weight located low and directly behind the sweet spot to lower the center of gravity for a higher trajectory. This is an ideal iron for those golfers looking for more forgiveness and higher trajectory but don't want to play a "bulky" game improvement iron. Finished in a beautiful mirror polish with sand blasted score lines and cavity, the CGS also features moderate offset and a .250 inch top line to promote confidence at address. Customize a set for yourself and **"Knock Down That Pin!"™**

### Specifications

Iron	Loft	Lie	Offset	Bounce	Length
3	21°	59.5°	0.175"	3.0°	38.75"
